GLASS TOUCH LIGHTING CONTROL PLATE

The QL-CPG108 is a glass finish feather touch lighting control plate with 10 buttons. It is available in many finishes. It is an elegant user interface for control of lights and curtains by the user.

The QL-CPG108 sits on the QL NET bus takes power from the bus and gives commands to the actuator or controller depending on the system architecture.

The QL CPG108 is available in a screw less clip-on construction with black, white and gold as standard finishes. It is a flush mounting plate which fits into a standard single gang 3" X 3" back box with fixing centers at 60.3mm.

The control plate is available with an in-built IR sensor for control by Qlite IR remote control. It operates in QL NET mode or NE100 mode depending on the system architecture. It can control a single zone or multiple zones at once, settable via combination of the ZONE button and other buttons.

Each button has a backlit LED, Blue when button inactive and Red when button is active. The brightness of the LED auto-adjusts depending on the external light falling on the control plate.
