

The QL-CP EN enigma series of control panels are control panels to be used with QL RCU EN enigma series controller. These include all control panels like energy saving key card holder, bedside panels, corridor panels, other light control panels etc.

These are elegantly finished control panel available in a wide variety of standard finishes. The panels are customizable on project basis.

The panels are divided into two type based on their sizes – one size that fits into a standard 3" X 3" back box with fixing centers at 60.3mm and other size that fits into a standard 6" X 3" back box with fixing centers at 120mm.

There are variety of combinations of buttons with or without status LED and icons available on these two sizes of control panels to be chosen from. All these panels come in a screw less clip-on construction.

The control panels are not only elegant but are made with 'membrane switch' technology for increasing the mechanical life of the buttons and 'easy replace' method for maintenance purposes.

- *Useable with Enigma series RCU*
- *Available in a variety of elegant finishes*
- *Does not require a non-standard back box*
- *Customizable for number of buttons and backlit LED*
- *Membrane switch technology*
- *Screw-less construction*

## ENIGMA SERIES CONTROL PLATES

### Specifications

#### Power Supply

---

5V DC

#### Power Requirement

---

100mA

#### Connector

---

RJ45 Female socket for connecting to Enigma series RCU

#### Switch Type

---

Push Type Membrane Switch

#### LED indicators

---

Side lit LED for active indication (on required buttons)

#### Environment

---

Ambient Temperature : 0°C to 50°C  
Relative Humidity : less than 80%

#### Safety Regulatory Compliance

---

CE

#### Dimensions

---

86mm (W) x 86mm (H) x 40mm (D)  
(plates which fit into standard 3" X 3" back box)

172mm (W) x 86mm (H) x 40mm (D)  
(plates which fit into standard 6" X 3" back box)
