

QL-CPH01

GLASS TOUCH CORRIDOR PANEL

The QL-CPH01 is a glass finish feather touch corridor panel for Qlite Guest Room Management System. It is available in many finishes. It is an elegant user interface for service indication and bell push placed outside the guest room.

The QL-CPH01 sits on the QL NET bus takes power from the bus and gives commands to the actuator or controller depending on the system architecture.

The QL CPH01 is available in a screw less clip-on construction with black, white and gold as standard finishes. It is a flush mounting plate which fits into a standard single gang 6" X 3" back box with fixing centers at 120mm.

The service indication icons are backlit with Red, Green and Yellow LEDs for various services and bell touch button. The icons and color scheme on the panel are fully customizable as per project requirement.

- *Available in a variety of finishes*
