

## INFRARED REMOTE CONTROL

The QL IR05 is an infrared remote control for controlling Qlite lighting control and automation system. Qlite control plates have a built-in IR sensor which can read the IR signal from this remote control. It is battery operated with simple 6 scene control buttons with master off and raise and lower buttons.

### Specifications

Power Supply  
3V DC

Battery Type  
3V CR2025

Keypad Type  
Silicon Rubber

IR Emitter Count  
1 no. IR Emitter

Power Consumption  
Approx 50mA at IR transmit

Environment  
Ambient Temperature : 5°C to 40°C

IR Frequency  
38KHz – 56KHz

Dimensions  
45mm (W) x 100mm (H) x 20mm (D)

- *Simple IR Transmitter*
- *Six scene + Master raise, lower and off*
